Subject: Nadcap Certification Process Change
Date: Wednesday, January 13, 2010 5:02:50 PM

Dear Nadcap Supplier,

In an effort to provide our Customers with the most up to date information possible and continually improve Nadcap as a cost efficient program, the way Nadcap issues hard copy certificates is being modified. Effective 14-January-2010, all future printable documents, including certificates and scopes of accreditation, will no longer state the expiration date. You can refer interested parties to www.eauditnet.com - Online QML (Qualified Manufacturer Listing), which reflects the real-time accreditation status and scope for all Nadcap accredited Suppliers. AC7006 accredited Suppliers should refer interested parties to the ISO/IEC 17025 QML.

All currently accredited Nadcap Suppliers will be receiving a new hardcopy Nadcap Certificate in the mail for each accredited commodity. The new Nadcap certificate will replace any previously issued Nadcap certificate. Because of the mailing of new certificates no reaccreditation certificates will be sent after 01-February-2010. All updated certificates will be mailed by 26-February-2010. Please retain this certificate in a safe place as a new certificate will NOT be issued after each reaccreditation audit. The only time that new certificates will be sent is:

1. After an Initial commodity audit

2. As a result of a Company name change (tfrm11)

3. As a result of a Company address change (tfrm11)

Questions may be directed by email to prinadcap@sae.org. Thank you.
