

eAuditNet

Revolutionizing the way you do business

**eAuditNet was
launched on
November 4, 2002**

“eAuditNet is a revolutionary tool which enables PRI/Nadcap to carry out the most comprehensive quality assurance program in the aerospace industry worldwide.”

Arshad Hafeez
PRI Director of Global
Business Operations

Owing to the global expansion of Nadcap, eAuditNet is the worldwide aerospace system for special process and product quality management

What is eAuditNet?

eAuditNet is a web based system facilitating the operation of an entire organisation, linking companies throughout an industry across the world and promoting mutual success and continuous improvement in quality. eAuditNet was developed by the Performance Review Institute (PRI), a not-for-profit organization that administers Nadcap, the global aerospace industry managed special process and products quality assurance program.

eAuditNet at work

eAuditNet is an online system for everything relating to Nadcap audits. The biggest benefit of eAuditNet is the reduction in operating costs for the industry:

- eAuditNet has eliminated paperwork.
- eAuditNet facilitates real-time interaction, regardless of location or time - 24 hours per day, 365 days per year.
- All stakeholders share responsibility in the knowledge that eAuditNet provides the structure to function efficiently and effectively.

Suppliers learn how the Nadcap process works: from requesting a quote to scheduling an audit; from carrying out thorough audit preparation to responding effectively to non-conformances after the audit in order to gain accreditation promptly.

Subscribers monitor real-time progress of their suppliers to ensure compliance with aerospace industry standards.

Auditors use eAuditNet to view audit history and file electronic audit reports upon completion of a Nadcap audit.

In addition, eAuditNet also contains the online Qualified Manufacturers List (QML), which is a searchable database of certified Nadcap suppliers. Procurement can use the QML to research and contact Nadcap accredited potential suppliers.

eAuditNet - The Integrated Business Solution

Why use eAuditNet?

- User friendly, live database with a staffed helpline
- Eliminate anti-trust issues through online security
- Increase productivity and synergy with simultaneous access worldwide
- Multi-tiered application access levels via independent account administration
- Download statistical reports for analysis
- Focused discussion forums minimizing conference calls and email correspondence
- Dynamically structured forum topics permitting a responsive, ad hoc, on-topic focus
- Automatic email notification when information is generated or updated
- Mass email functionality
- Secure, password-protected access to information available online and offline anywhere in the world
- Ability to administer periodic internal and oversight audits
- Customized to your requirements and flexible, enabling the evolution of purpose driven adaptive organization and maximizing opportunities for new projects
- Adaptable system that can be used for all industries

“eAuditNet is a vital tool in monitoring our supplier base and ensuring that quality in the industry is maintained. The database allows us to design reports and highlight focus areas.”

Jon Biddulph
Rolls-Royce plc

eAuditNet: Adding Value

PRI will process 3207 audits in 2006 compared to 1196 in 2001 thanks to the increased communication opportunities provided by eAuditNet while minimizing costs for participants.

Improved availability of data via eAuditNet allows the industry to implement more focused and effective process improvements.

eAuditNet - Taking You Into The Future

eAuditNet

Standardizing Quality

The first live online system for the aerospace quality sector created cooperatively with government and industry.

eAuditNet has processed over 10,300 audits

“eAuditNet complements our internal supplier approval system perfectly. The visibility that eAuditNet provides significantly contributes towards upholding and improving global industry quality standards. The interactive nature of eAuditNet unites the Industry.”

Bill Black
EADS

eAuditNet is used by nearly 50 primes

SUBSCRIBER CAPABILITY
Look up audit information for a supplier including checklist details, nonconformances (NCR) details, and Supplier and Task Group NCR responses
Look up the current audit status of a supplier
Download or print hard copy checklists
View new or existing supplier advisories
Maintain your own supplier list online with the confidence that access is restricted to your company through the “My QML”, “Supplier Advisory”, “SE Review*” and “Task Group Review*” applications
Run detailed analysis reports using eAuditNet data
View all Nadcap procedures, handbooks and guides
Search for accredited suppliers by sector, audit scope and accreditation expiration date using online Qualified Manufacturers List (QML) and contact them for procurement purposes
Create new eAuditNet users for your company**
Edit current eAuditNet users for your company**
Accept or reject eAuditNet users that select your company during registration**
View and discuss supplier audit NCRs*
Ballot on supplier audit approval and failure and merit recommendations*
View Interlaboratory Proficiency Testing (IPT) results using IPT Prime
Receive Supplier Advisory and Task Group Review automated emails

*Task Group Member Access

**Company Administrator Access

eAuditNet - The System for Quality in Aerospace

eAuditNet

SUPPLIER CAPABILITY
Schedule an audit for your company and receive auditor email contact information as soon as your audit is scheduled
Benefit from eAuditNet automated reaccreditation audit function and accept Supplier Agreement if your audit is scheduled for you
Download or print hard copy checklists to perform self-audits prior to your scheduled audit
View the current audit status, audit details, and respond to audit nonconformances (NCRs) with the confidence that proprietary information is secure
Close out audits via online discussion forums, uploading and attaching files to support accreditation
Verify audit scope with auditor online
Designate ITAR/EAR status of audits
Receive email reminders to prompt timely action
Access IPT (Interlaboratory Proficiency Testing Program)
View or respond to supplier advisories issued to your company
View supplier related Nadcap procedures, handbooks and guides
Feature on online Qualified Manufacturers List (QML)
Search for accredited suppliers by sector, audit scope and accreditation expiration date using online Qualified Manufacturers List (QML) and contact them for procurement purposes
Create new eAuditNet users for your company**
Edit current eAuditNet users for your company**
Accept or reject eAuditNet users that select your company during registration**
Provide post-audit feedback

**Company Administrator Access
