

equaLPrep

THE FLIGHT PATH TO
AEROSPACE SUCCESS

GLOBAL GATEWAY TO ANOTHER DIMENSION IN KNOWLEDGE AND QUALITY

Performance Review Institute

eQuaLPrep IS PART OF PRI'S CUSTOMER SOLUTIONS AND SUPPORT (CS&S), WHICH AIMS TO IDENTIFY AND MEET CUSTOMER DEMAND IN ALL AREAS OF BUSINESS RELATING TO QUALITY.

The state of the global economy has left many industries wondering about their next step. Unlike other sectors, the aerospace industry has maintained a strong position and PRI believes this will help the global economy in its recovery.

Be part of the success

Through eQuaLPrep, PRI is offering a maturity assessment to evaluate the readiness of an organization to integrate into the aerospace industry and help develop a strategic plan to achieve that goal. This program adds value to the operations of:

- Government agencies with an objective of developing a domestic capability to reduce the dependency on foreign suppliers.
- Aerospace Prime contractors looking to identify or develop sources in foreign countries, due to economic or offset requirements.
- Potential Suppliers who want to enter a new market to maximize their business potential.

How does eQualPrep help?

With a wide range of multi-lingual experts, eQualPrep is perfectly positioned to develop expertise in different regions in order to reduce costs.

eQualPrep uses a standardized maturity assessment tool to provide a detailed gap analysis leading to the development of a strategic plan, including a demonstrated process eliminating costly and timely mistakes.

Focus on People, Processes and Tools

People

- Ensure the supplier has a management plan, assemble all parts into a cohesive process with costs, timetable and expectations
- Identify the necessary training in order to meet the required qualifications

Processes

- Provide the technical expertise to set the requirements with a vision toward the future and growth
- Provide the means to identify reputable equipment and material suppliers and to capture and execute purchase orders
- Provide the expertise to reach Quality requirements
- Identify often overlooked areas of needed support in order to meet key milestones

Tools

- Provide the expertise to develop a strategic view of the total opportunities via a make-or-buy analysis which will allow a faster way to secure contracts and cash flow
- Provide the expertise to develop a total manufacturing enterprise to achieve needed efficiencies
